Workshop on Biobanking in Support of Clinical Trials

to be held on 12th March 2010, at the Kings Fund, 11-13 Cavendish Square, London, W1G 0AN.

09.30 – 10.00	Registration and refreshments	
10.00 – 10.05	Opening Address	Dr Jane Cope, National Cancer Research Institute
Session 1	Why do clinical trialists want to collect samples?	Chair – Prof Rick Kaplan, National Cancer Research Network
10.05 – 10.25	Academic perspective	Dr James Brenton, University of Cambridge
10.30 – 11.00	Industry perspective	TBC
11.00 – 11.10	Questions	
Session 2	Patient participation, ethics and governance	Chair – Derek Stewart OBE, Chair CCB and NIHR, Clinical Research Networks Co-ordinating Centre
11.10 – 11.40	Why would a patient want to be a “guinea pig”?	Neil Formstone, Founder Lay Member Wales Cancer Bank
11.40 – 12.10	Ethics and governance issues related to biobanking for clinical trials	Dr Catherine Elliott, Medical Research Council
12.10 – 13.00	Networking Lunch	
Session 3	Ownership, Custodianship, Access and Usage	Chair – Dr Brian Clark, onCore UK
13.00 – 13.15	Academic perspective	Prof Andy Hall, Northern Institute for Cancer Research
13.15 – 13.30	Industry perspective	Prof Chris Womack, Astra Zeneca
13.30 – 13.40	Questions	
Session 4	Practical Considerations for sample collection, processing, storage and release in international multicentre trials	Chair – Prof Barry Gusterson, University of Glasgow
13.40 – 14.05	Case study 1 – Colorectal cancer trials	Prof Tim Maughan, University of Cardiff
14.05 – 14.30	Case study 2 – Haematological cancer trials	Prof Alan Burnett, University of Cardiff
14.30 – 14.40	Questions	
14.40 – 15.00	Networking Break	
Session 5	Biobankers and clinical trials	Chair – Prof Chris Foster, University of Liverpool
15.00 – 15.30	What can biobankers offer trialists?	Dr Alison Parry-Jones, Wales Cancer Bank
15.30 – 16.00	Quality management of biobank resources and compliance with clinical trials requirements	TBC
16.00 – 16.30	Closing address	Prof Sir Kenneth Calman, Chair National Cancer Research Institute
