

# Quality Matters – Day 2

Can we fix it? Yes we can!

# Quality Matters – Day 2

Can we fix it? Yes we can!

# Formalin and beyond

- Frozen samples seen as a 'gold standard' for molecular biology (really?...)
- Is this practical for clinical sampling?
- Are there alternatives?

# Quality matters

Garbage in...

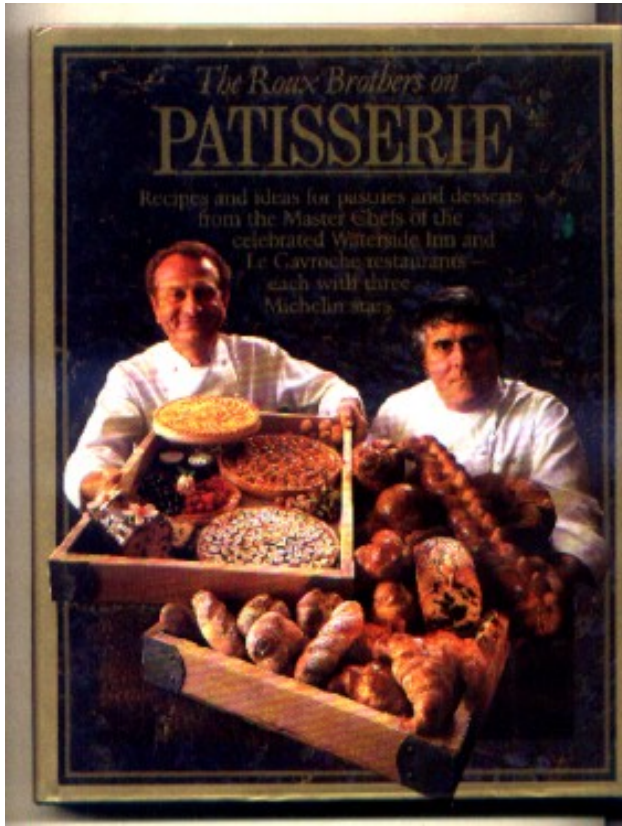

...*garbage* out

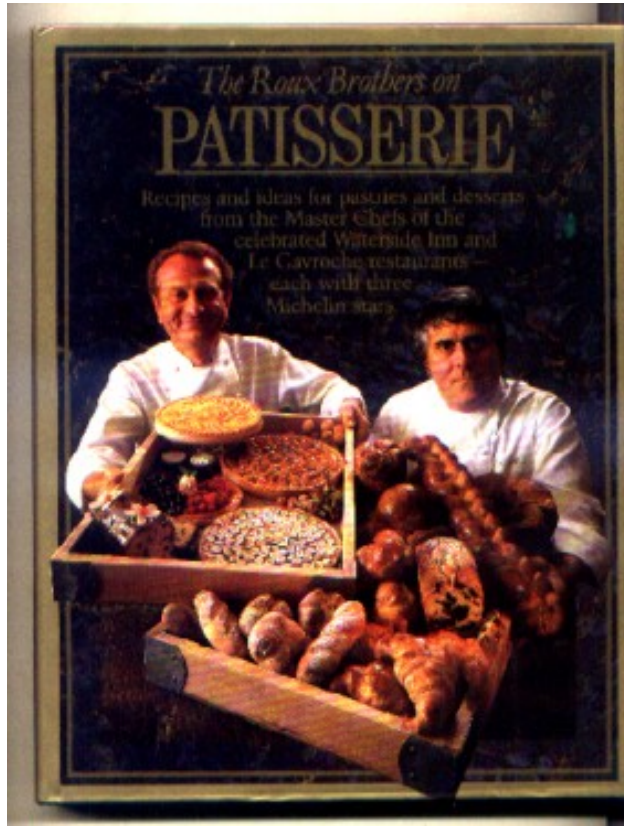

# Quality of the biospecimen matters

# Quality of processing matters

# Quality of processing matters

# But How?

- Speed of fixation
- Quality issues for TMA production
- DNA and RNA QA
- Proteomics

# But How?

- Speed of fixation
